DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/20/2005 has been entered.

Allowable Subject Matter

2. Claims 1-2, 4-8 and 10-18 are allowed.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

As to independent claims 1 and 7, none of the cited references either singularly or in combination teach or fairly suggest an image display apparatus or an image signal processing apparatus that includes among other features, a gamma correction means for performing a gamma correction on a color image signal received from an image signal receiving means to produce gamma corrected color image signal values, and a chromaticity adjustment means for performing a calculation using the gamma corrected color image signal values so as to adjust the chromaticity of an image to be displayed by the image display apparatus for each of the primary colors.

As discussed in the applicant's argument, the claims as amended clearly show that the chromaticity adjustment means is adjusting of the chromaticity based on the gamma corrected color image signal, which is not taught by Saito or Foley.

As to claim 12, the recitation of having the target chromaticity level for each primary color is set to a value in chromaticity that is among coordinate values belong to a common chromaticity range which is common to ranges of chromaticity that can be displayed by the plurality of image display units, and is closest to a standard chromaticity coordinate value for each primary color, is not taught or suggested by the cited references. Similar recitation is shown in claim 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Amr Awad whose telephone number is (571) 272-7764. The examiner can normally be reached on Monday through Friday from 9:30 AM to 6:00 PM.
